

Fall 2016 Alternative Testing Agreement

(To be completed by Instructors and returned by student to Exam Services. Information from this form will be entered into our AIM system on the Instructor's behalf)

Course number and section: _____ **Student's name:** _____

Exam Services provides exam accommodations for students with disabilities registered with our office. The Testing Agreement is to be completed by the instructor with details regarding what materials and instructions students in the classroom are allowed during exams.

A student in your course is eligible to receive exam accommodations. Instructors need to complete one Testing Agreement per class per section they are teaching each semester.

Students are to schedule exams at regular class time unless the student has a conflict with their class schedule or with Exam Services hours of operation. In this case, students are instructed to discuss alternate start times with their instructors. If an exam is scheduled at an alternate start time, please contact the student or Exam Services with any questions.

For online exams that do not require a proctor, please confirm with the student that their extended time accommodation is in place. A Testing Agreement is not needed.

If you will proctor the exam yourself and have any questions regarding providing exam accommodations, please contact Disability Services (361-825-5816).
